Craft

AFTERNOON

Lunch

Recess

Rest time with audio stories

Science

Art

Games - traditional and cooperative play

Fine motor skill practice through crafts

The Jr. K program is an excellent introduction to HLS and provides age-appropriate, quality content using real books, recitation, and repetition to help our youngest students become reading-ready and prepared for our thorough phonics-based Kindergarten.

The program focuses on letter and number recognition, introductory phonics, counting, letter formation, fine motor, and gross motor skills, work habits such as listening and attention to detail, and age-appropriate teaching methods that include games, art, music, and indoor/outdoor play.

Contact our Admissions office for more information at 317-519-5501.
